The Ergonomic is a lifting tool that enables end users to lift a floor hatch without having to adopt an unnatural posture that is uncomfortable for the back.
The YU.Access Ergonomic Plus is a composition of the hoisting rope in combination with a steel O-ring and a carabiner. The lifting rope is a bifurcation with 3 loops, each of which has 5 reinforcement seams.
The combination of the O-ring and the carabiner makes this Ergonomic Plus the ideal tool for the YU.Premium covers.

MATERIAL PROPERTIES (ERGONOMIC PLUS)

Material hoisting rope:	Weave nylon
Material O-ring:	Galvanised steel Q195
Material carbiner:	Galvanised steel Q195
Capacity:	90 Kg / lifting element
Weight:	200 g

WARRANTY PROVISION

If a component fails to operate correctly or should become faulty under normal use and within a period of one year from its date of installation, said component shall be repaired or replaced free of charge.

The following shall be excluded from this warranty provision:

- ▶ Improper application
- ▶ Transport damage
- ▶ Improper assembly
- ▶ Infringements of component and/or maintenance instructions.

APPLICATIONS

This Ergonomic Plus has been developed for all applications like the YU.Premium & YU.Design which make no longer use of the threading and bolt combination in the lifting mechanism of a manhole cover
