The YU.Drain FastDrain 75 Inspection hatch comprises three components in one package, which are particularly easy to assemble during installation.

This contains a unit comprising a bottom component (including 2 conduit connectors), an outer frame (to be glued to the bottom component) and an internal compartment (including 2 DCT caps).

When it is linked to the conduit, the inspection hatch is perfectly in line with the groove of the conduit.

In combination with the FastDrain 75 End-piece inspection hatch with a drainage of 50, you can also opt for a side drain outlet.

This item does not include the DCT set of spanners enabling you to raise the internal compartment from the outer frame.
